**A description of items (inc. age, condition, brand/make) helps them sell / sell for more. The initial ebay listing price should represent a realistic achievable 'would like' price. Items listing at £10 or more failing to sell, will be re-listed at 50% of the original listing price . A 99p listing often generates substantial interest/bidding activity to allow items to reach their 'true' value - items listed at < £10 failing to sell will be re-listed at 99p.**

**Items failing to reach the initial ebay listing price / failing to sell in the first auction**
